

## GOOD ROAD MEETING TO ENTERTAIN VISITORS

DELL POTTER OF CLIFTON PUTS THIS MATTER BEFORE PERSONAL BUSINESS

## SUPERVISOR GIRARD COMING

GOOD TURNOUT REQUESTED AT MEETING AT DOMINION HOTEL TONIGHT

If the business and professional men of Globe show the same interest in the good roads question that is manifested by Dell M. Potter of Clifton, the meeting to be held by the Globe chamber of commerce in the dining room of the Dominion hotel this evening should bring all hoped for results. In reply to an invitation sent to him a few days ago by Secretary F. F. Towle, Mr. Potter sent a telegram to the chamber of commerce yesterday. In its expression of loyalty to the cause of good roads it is unquestionably sincere. It is, moreover, if so interpreted, an eloquent appeal to the citizens of this city to cooperate in this most important movement to secure better highways in Gila county. The telegram follows:

GLOBE CHAMBER OF COMMERCE, F. F. Towle Secretary.  
My business demands my personal attention, but all Arizonians' personal business should be of secondary consideration when the great subject of roads is to be considered, a subject which means more to this territory than the building of railroads. I will arrive on the train tomorrow evening.

DELL M. POTTER.

In view of the energy and spirit of such a guest as Mr. Potter, the least that the people of Globe can do this evening is to attend the meeting in force to hear any suggestions he may have to offer on the work in which he is so interested and experienced. And having attended, it is to be hoped that everyone will do all in their power to make the new bond issue for good roads in this county a reality in the near future. As Mr. Potter says, it is not exaggerating to say that this country of ours needs good roads more than it does railways, and having once obtained suitable highways, the growth of population may be depended upon to take care of itself. People, as a rule, locate where advantages for business and right living are to be had, and of all advantages, good means of travel are most important.

The chamber of commerce is desirous that everyone, whether a member of the organization or not, but having the best interests of the city at heart, shall be present at the meeting this evening to swell the majority already in favor of the good roads bond issue.

Pertaining to the good roads question, it is interesting to note that certain enterprising citizens of Douglas are agitating the matter of a territorial highway from that city to the Grand Canyon. The best route for such a road would lead through Tombstone, Wilcox, Solomonville and from there to the Grand Canyon by way of the Gila Valley and Globe.

A telegram was received at a late hour last night by Secretary F. F. Towle, saying that G. F. Girard, the territorial highway engineer, is coming

here from Phoenix to attend the meeting of the business men, and that he will be accompanied by Mr. McIntyre, the California road expert. This news leaves no doubt that the meeting at the Dominion tonight will be the most effective in the cause of good roads that has ever been held in Gila county.

## How the Leagues Are Stacking Up

### NATIONAL LEAGUE

At Brooklyn (1st game)—R. H. E.  
Philadelphia ..... 0 3 2  
Brooklyn ..... 2 5 0  
Batteries—Moore and Jacklitch; Rucker and Bergen.

At New York (2nd game)—R. H. E.  
Philadelphia ..... 1 7 1  
Brooklyn ..... 5 8 1  
Batteries—Covaleski and Dorn; Hunter and Bergen.

At New York (2d game)—R. H. E.  
Boston ..... 1 4 3  
New York ..... 11 13 3  
Batteries—White, Lindaman, Ferguson and Bowerman; Matthews, Crandall, Schlei and Snodgrass.

## WORK WILL BEGIN ON FOOTBRIDGE OVER CREEK TODAY

BARNEY HARMSEN HAS THE CONTRACT AND WILL RUSH CONSTRUCTION TO FINISH

Preliminary work will be commenced on the new suspension foot bridge across Pinal Creek at the Gila Valley depot today.

Barney Harmsen, who has the contract for the work, expects the engineer who has charge of the work to complete the work of laying out the necessary points in a short time. Work will then be commenced on the abutments for the bridge and early next week it is expected that everything will be in readiness for the stringing of the cables, which will support the bridge timbers.

As the span is a long one it will be necessary to put in four abutments, one on either end and two in the channel of the creek. This should give the bridge a very stable foundation and prevent the unpleasant swinging which is an objectionable feature in other bridges of this class about town.

As there is some seepage water in the bed of the creek, it will probably be necessary to install a steam syphon to permit the necessary excavation for the construction of the concrete abutments.

The new bridge will be constructed by the Gila Valley railroad company, in consideration of receiving the ground formerly occupied by a street at the site of the depot, which was vacated a short time ago by the action of the city council. It will afford a good means of passage between this side of town and that district lying south of Kinney park, on the west side of Pinal creek.

## "THIS IS MY 59TH BIRTHDAY"

### GENERAL LORD KITCHENER

General Lord Kitchener, the celebrated British general who is at present commander of the military forces in India, was born in County Kerry, Ireland, June 24, 1850, and was educated at the Royal Military academy at Woolwich. In 1871 he entered the Royal Engineers. His career since that time is substantially a review of the wars and military expeditions in which England has engaged during the past thirty-five years. He was in command of the Egyptian cavalry from 1882 to 1884 and in the latter year distinguished himself in the Nile expedition. He remained in Egypt and the Sudan for more than ten years and in 1898, in recognition of his heroic services in front of Khartoum, General Kitchener was raised to the peerage and given a grant of \$150,000 by parliament. During the last war with the Boers in South Africa he was commander-in-chief of the British forces. When the war was ended he was created a viscount and promoted to the rank of general, in addition to receiving other honors from his government.

Sometimes you may be told that there are other things just as good as De Witt's Kidney and Bladder Pills. That isn't so. Nothing made is as good as De Witt's Kidney and Bladder Pills for any ailments of the kidney or bladder, which always result in weak back, backache, rheumatic pains, rheumatism and urinary disorders. A trial of De Witt's Kidney and Bladder Pills is sufficient to convince you how good they are. Send your name to E. C. DeWitt & Co., Chicago, for a free trial box. They are sold here by Palace Pharmacy and United Drug Co.

## FIXTURES OF BANK WILL ARRIVE IN SHORT TIME

BUILDING NEAR COMPLETION—NEW HOUSE ONE OF FINEST IN THE TERRITORY

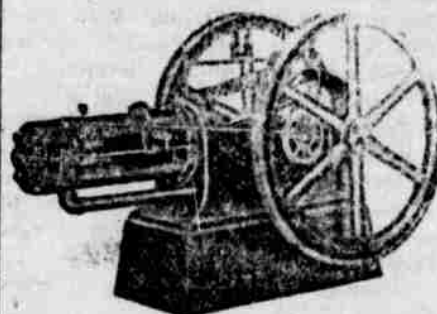

The fixtures for the new Gila Valley Bank & Trust company building will be shipped within the next few days, permitting the building to be ready for occupancy by the first of August, barring any unforeseen delays, according to E. M. Hurd, local manager, who returned from Denver Sunday night.

The building is now finished, with the exception of the installation of the fixtures and decoration of the interior. The fixtures will be fitted, ready to put in place, and when they arrive here, it will be a matter of only a short time to fit up the new banking institution. The bank will be fitted up in fine shape and will be one of the handsomest institutions of its kind in the territory. The big vaults have been constructed as nearly burglar proof as it is possible to make them and the tellers' cages will be protected by special devices, making it practically impossible for any money to escape except through legitimate channels.

### GOOD SHOW AT IRIS

Two good acts and five excellent moving pictures tonight.

## Miller's Cafe well Satisfied with Business

O. W. Miller and Tony Neary, proprietors of Miller's Cafe, in the Trust building, are very much gratified at the large volume of business done at their new location since their interesting opening Sunday evening, and say the patronage of the new eating place exceeds their expectations. The service is equal to, if not better than, that of their old place, which became famous as a first-class eating place. They have now made arrangements to receive daily from Kansas steaks and other high-class meats for their patrons, and state that in the future as in the past they will be able to take care of their increasing patronage in a highly satisfactory manner. They make a specialty of family trade and after-theater parties, having private boxes for this purpose, at the same time continuing their lunch counter for those who prefer this style of service.

### You Never Can Tell

Just exactly the cause of your rheumatism, but you know you have it. Do you know that Ballard's Snow Liniment will cure it—relieve the pain—reduce the swelling and limbers the joints and muscles so that you will be as active and well as you ever were. ## "1892" Pure Aluminum Ware

Will Not Rust, Crack,

Break, Scorch or Burn

Cheapest Because Best

Will Last a Lifetime

HERE, at last, is the ideal kitchen and cooking utensil—"THE WARE THAT WEARS"—made from Pure Spun Aluminum, and

guaranteed by the makers to last 25 years with average usage. "Spun" Aluminum, mind you, not cast Aluminum, which will sometimes crack and scale. Spun Aluminum Ware will never crack, peel, scale or break.

Costs a trifle more than ordinary enamel ware, but is many times cheaper in the long run, because of its wonderful durability and fuel saving. Enamel ware is iron coated with colored glass. Iron expands with heat. Colored glass does not, but chips off into the food with dangerous results to those who eat it.

That the use of enamel kitchen ware causes cancer is a view held by some eminent medical authorities. Dr. William H. Diefenbach of New York, in a paper entitled "Observations on the Etiology of Cancer," read before the Bureau of Sanitary Science and Public Health during the session of the International Homeopathic Congress at Atlantic City, discussed this subject.

According to a special dispatch to the Philadelphia North American, Dr. Diefenbach advanced the argument that chipping

of the hard-coated dishes used in preparation of meals allowed minute but dangerous particles of foreign matter to become mixed with the food, these being taken into the stomach, where the cancerous growth is caused by abrasions which they make in the walls of the organ.

"1892" Pure Aluminum Ware saves doctors' bills. It enables you to bake bread, pies, pan cakes, etc., without grease, which is the great cause of dyspepsia and indigestion. Aluminum griddles require no grease; hence are smokeless and odorless.

"1892" Pure Aluminum Ware will not scorch or burn, is easily cleaned, will not rust, or corrode. Handsome in appearance. Looks like silver, but weighs only about one-fourth as much, and is light and convenient to handle.

The original and only genuine Spun Aluminum Ware is made by the Illinois Pure Aluminum Co. at Lemont, Ill. Every piece bearing their trade-mark, the Maltese Cross, and marked "1892" Pure Aluminum Ware is absolutely pure, wholesome and hygienic, and guaranteed for 25 years.

See that you get the right goods and accept no substitute.

## Delicious Ice Cream

There is a cool, refreshing taste and a fine flavor to our Ice Cream that tickles the appetite of old and young. All flavors. Try a dish of it or take some home.

Our soft drinks and sodas can't be beat.
